

Abdullah Ashraf Etmam Ali

Electronics & Communications Engineer | Optical Transmission & FTTH

✉ abdullahashrafetmam114@gmail.com ☎ +201010559118 📍 Sohag, Egypt 🔗 [LinkedIn](#)

Summary

Motivated Electronics & Communications Engineering Graduate with a solid background in Optical Transmission (DWDM/OTN), Fiber Optics, and FTTH project rollout. Hands-on experience gained through field and project implementation training at Telecom Egypt (WE), coupled with strong knowledge of IP networking and cloud fundamentals. Holding professional credentials from Cisco and Huawei, seeking an entry-level Optical Transmission, FTTH, or Rollout Engineer role.

Education

Bachelor of Engineering in Electrical Engineering (Electronics and Communications),
Higher Institute of Engineering and Technology in Sohag
Cumulative Grade: Very Good | Final Year: Excellent | Graduation Project: Excellent

2021 – 2026
Sohag, Egypt

Experience

FTTH & Fiber Optics Project Rollout Intern, Telecom Egypt (WE)
• Supervised FTTH civil rollout, cable pulling (up to 64C), and installation of FDT secondary cabinets and wall-mounted FATs.
• Performed fusion splicing, optical budget testing (OPM/OTDR), and resolved macro-bending faults across cascaded 1:8 & 1:16 splitters.
• Audited As-Built drawings, schematic diagrams, and port allocation matrices for 52 distribution boxes to ensure technical handover compliance.

08/2026 – Present
Sohag, Egypt

Trainee Network Engineer, Telecom Egypt (WE)
• Trained on enterprise IP network infrastructure, routing/switching configurations, and physical layer troubleshooting workflows under the Cisco & Telecom Egypt initiative.
• Applied foundational network security protocols, VLAN segmentation, and sub-netting principles in simulated and hands-on enterprise lab environments.

07/2025 – 10/2025
Sohag, Egypt

Projects

Smart Wheelchair & Medical Monitoring System
Graduation Project | Grade: Excellent
• Designed and built an IoT-enabled wheelchair integrated with medical sensors (ECG, SpO2, Temperature) for real-time patient telemetry.
• Developed microcontroller firmware using embedded C/C++ and integrated wireless data streaming to cloud interfaces with instant alert systems.
• Implemented cross-platform mobile connectivity for real-time voice commands and remote sensor monitoring.

Certifications

- Cisco Certified Network Associate (CCNA) (2025)
• HCIA-5G V2.0 – Huawei (2025)
• Artificial Intelligence Track – DEBI / MCIT (2026)
- HCIA-Cloud Computing V5.5 – Huawei (2025)
• AWS Cloud Architecture & Core Services (2026)

Skills

Transmission & Optical Networks
FTTH/GPON Architecture, Fiber Splicing, ODF/FDT/FAT Installation, Power Budget Calculation, Macro-bending Troubleshooting, As-Built Verification.

Testing & Tools
OTDR, Optical Power Meter (OPM), Cisco Packet Tracer, AutoCAD (Basics / Route Layouts), OptiSystem, MATLAB.

IP Networking & Cloud
Routing & Switching, VLANs, OSPF, IPv4/IPv6 Subnetting, Huawei Cloud, AWS Fundamentals, Network Security.
